Terms and Conditions

PRICES
All Prices are F.O.B. point (Continental U.S.). We reserve the right to change prices without prior notice. See Friant policy at www. Friant.com

ORDERING
Purchase Orders should be sent to Friant & Associates, LLC at orders@friant.com, or faxed to (510) 535-6895. If your specifications were created with CAP, GIZA, or Project Matrix please send the worksheet (SP4) with your Purchase Order.

TERMS
Net 30 days from date of invoice. Invoices are delinquent if not paid 30 days from date of invoice. In the event timely payment is not made, interest will be charged at the rate of 1.5% per month on delinquent accounts. Buyers will also be liable for normal collection costs and attorney's fee. 50% deposit is required with every order, unless prior arrangements have been made.

ORDERS
Orders are only accepted by issuance of our formal acknowledgment, and are subject to the terms set forth herein and on our order acknowledgment. It is the responsibility of the buyer to review our acknowledgment for accuracy.

LEAD TIME
Lead times are subject to availability.

SHIPPING
Friant generally palletizes, boxes and/or shrink-wraps its products. If buyer requests additional packaging or special shipping, then it is responsible for any extra costs that result. Buyer obtains title to products and assumes the risk of loss for them upon shipment from Friant's plant.

CLAIMS
We are not responsible for damage suffered in transit. Merchandise should be inspected for possible freight damage upon delivery. The consignee should file for damage or shortages with the carrier within 5 days of delivery. You are also protected for "concealed damage" if you file claim with the carrier within 5 days of delivery. Buyer must make all claims against Friant for defects, errors or shortages in writing within 10 days after delivery. Failure to make such a claim shall constitute full acceptance.

RETURNS
No merchandise may be returned without our written consent and shipping instructions. Unauthorized returns will not be accepted and will be returned freight collect.

PARTIAL SHIPMENTS
We will make every attempt to ship orders complete and on schedule. However, we reserve the right to make partial shipments, as merchandise is ready. Invoices covering these shipments are to be paid as they become due.

ORDER CHANGE — CANCELLATIONS
Our order confirmation is final and binding. Any order change or cancellation is subject to our ability to conform. For the most up to date information, always review the order change/cancellation policy online. Allowable changes within the posted policy must be made in writing.

SHIPMENT AND PREPAID FREIGHT
Unless otherwise instructed, we reserve the option to ship by what is, in our opinion, the best possible way. Upon request, we will prepay and add freight for accounts with established credit.

DELIVERY
We are not liable for delay or failure of delivery due to strikes and/or differences with workmen, war, riot, fire, compliance with government regulations, acts of nature, failure or delays of sources of supply, or any other causes beyond our control.

STORAGE
If buyer cannot accept delivery when merchandise is ready, we reserve the right to transfer goods to storage. Costs of transfer and storage will be charged to the buyer's account, and we will deem such transfer as constituting shipment for all purposes, including invoicing, as of the date the transfer is made.

Terms and Conditions continued

CONSTRUCTION — SPECIFICATIONS
All items are produced to price list specifications unless otherwise advised. All dimensions shown are approximate. Manufacturer reserves the right to make modifications and/or improvements without prior notice.

FABRIC APPLICATION
Standard fabric application is **non-directional.**
Friant & Associates is not responsible for charges associated with replacement of products due to incorrect specifications. Please note:
Certain product construction and sizes require fabric to be applied only Directionally or Non-Directionally. See individual pricebook specifications for details.

CUSTOMER'S OWN MATERIAL
Yardage requirement is based on 66" wide plain covering material, and must be increased if less than 66" wide. Special instructions for handling material (pattern, directional fabric, right side of reversible fabric, etc.) must be submitted in writing before fabric is delivered. In the absence of special instructions, we reserve the right to use our own judgment. We reserve the right to reject any covering, which in our opinion, is unsuitable for our upholstery purposes. However, in no instance shall we be held responsible for unsatisfactory results due to use of covering unsuitable for our upholstery methods.

We will not be responsible for errors caused by buyers not supplying us with sample cuttings attached to their order giving full identification of covering material, (name of supplier, covering name, number and color) for identification purposes and advising us of model number and quantity to which each cover is to be applied.

Customer's own material that is shipped freight collect will be refused. A service charge will be applied for the return of unusable C.O.M. Contact factory.

NOTE:

- Fabric direction as per Friant's fabric card.
- All textiles listed are 66" wide.
- Order fabric/finish sample online at www.friant.com
- Colors may vary slightly between dye lots.
- **Passage and Terrain are not available on acoustical panels, pedestal cushions, tackboards or fabric screens..**
- Please consult your Friant sales consultant for:
  - Other colors not listed above
  - C.O.M. fabric

Pattern Direction

- Fabric direction is not always determined by the way the pattern is shown on memo sample.
- Certain product construction and sizes require fabric to be applied only Directionally or Non-Directionally.
- Some products have fabric applied either Directionally or Non-Directionally. (Upcharges may apply on some products, see price books for details).
- Please refer to our Materials Reference Guide on the Dealer Resource Center for specific pattern application defaults on all of our products: http://dealers.friant.com/dealers/product-literature/
- Our Customer Success Team is happy to answer any questions regarding fabric direction.

Ordering Verity: Elements

Verity benching can be ordered as Elements.
See below for further details about Elements and a guide on how to order.

Elements

Elements are parts to build a larger and more customized complete unit. They are not freestanding, must be combined with other elements, and require ordering supports separately. An Element consists of structure and worksurface only.

There are three types of Elements:
■ Starter/End Elements
■ Extension Elements
■ SA Elements (Stand Alone)

* Starter/End Elements are required at both the start and end of every run. Extension Elements are used anywhere between the Starter and End Elements.
* Support options for Elements include legs, pedestals, cabinets or credenzas.
* Additions, such as storage and accessories, are not included and need to be ordered separately.
* Available single-sided or double-sided, either non-powered or powered.
* Verity runs should not exceed 25'

How to Order Elements

**1** **Build a run with Starter/End and Extension Elements.**

First, select a Starter/End Element to start the run.
Next, select one or more Extension Elements to extend the run.
Last, select a Starter/End Element to end the run.

| Starter/End	Extension	Extension	Starter/End
FVSED4848-E4	FVED.4848-E4	FVED.4848-E4	FVSED4848-E4
2 **Select the supports.**

Starter/End Elements can be supported by legs or supporting storage. Extension Elements can be supported by open center legs, enclosed center legs or credenzas.

Starter/End Supports   Extension Supports
All storage supports require ordering attachment brackets separately.

3 **Order electrical components, as necessary.**

Order infeeds, duplexes and power jumpers from page 60.

4-Circuit Power Infeed at Base or Power Pole
Hardwire power infeed. Must be hardwired by an electrician.

4-Circuit Power Jumper
Connects power from one structure to another.

Duplexes
Provides access to I, II, III, IIII circuit.
Provides dedicated circuit with "IIII" receptacle.

4 **Optional: Select Additions to complete your unit.**

For all specification options and details, please reference the corresponding page from the table of contents.

How to Specify Support Selections in Verity Elements

Verity Double Sided Start/End and Stand Alone Elements have an option for the type of Support Bar. Specify the **Support Selection** on the Verity Element based on the type of legs used.

Please note: There is no Support Selection option for Extension Elements or any Single Sided Elements. Only straight support bars would be needed.
1 Select a Verity Element:

Powering Verity

A guide to ordering electrical components for Verity benching.
See below for further details about running electrical/data.

Connecting to Power

Power can be brought in 3 different ways, which are all shown below.
Select the option that best fits the needs of the space and order from the components shown on page 32.

Power pole

Wire Manager

Enclosed Center Leg

Figure A
- ■ Wire Manager + Infeed
  connect power anywhere along the run and use the wire manager to conceal wires.

- ■ Power Pole
  may be used only at the start or end of a run.

- ■ Enclosed Center Leg + Infeed
  connect power at the center of a run and conceal wires inside the leg.

Power Distribution

To bring power from one Element to another, order a 4-circuit power jumper.

Power Jumper for 96"W Elements
When connecting power for a 96"W element, use 48"W jumper.

96" wide elements require a 48" power jumper in the center in addition to the jumper connecting adjacent elements.

Double Sided to Single Sided, End of Run

- Verity offers Stand-Alone Elements sized specifically for placement at the end of Double-Sided runs
  - **FVSAES.2450-E4** (page 40) or **FVSAES.2450-N** (page 38) for use with 48"D Elements
  - **FVSAES.2462-E4** (page 40) or **FVSAES.2462-N** (page 38) for use with 60"D Elements
- Specify Double-Sided Elements and Supports to complete a freestanding Double-Sided cluster. Add Single Sided Stand-Alone Elements and supports to finish the run
- Add **(1) FV-DCT** Double-Sided Connecting Trough and **(1) FVJUMP.48** Jumper to bring the power from Double Sided cluster to Single-Sided Element
- Add **(1) FVFB.08** Flat Bracket pair to tie together the Double-Sided Elements to the Single Sided Stand-Alone
  - This does not provide support, aligns tops only. Double and Single-Sided legs need to be specified for support
Double Sided to Single Sided, Inline

- Specify Double-Sided Elements and Supports to complete a freestanding Double-Sided cluster. Add Single-Sided Stand-Alone Elements and supports to finish the run
- Add (1) FV-DCT Double-Sided Connecting Trough and (1) FV-SCT Single-Sided Connecting Trough to bring the power from Double-Sided cluster to Single-Sided Element
- Specify Jumper of appropriate length, see Power Jumper Sizing Chart for reference (page 62)
- Add (1) FVFB.08 Flat Bracket pair to tie together the Double-Sided Elements to the Single Sided Stand-Alone
  - This does not provide support, aligns tops only. Double and Single-Sided legs need to be specified for support

How To Specify My-Hite 2-Piece Extended Corner or Rectangular Tops

Use a FVFB.08 Flat Bracket pair to attach the two surfaces, making sure the seam is oriented so that it is supported by the continuous part of the My-Hite Corner Base. Maximum width combined: 84x84" (All My-Hite bases) or 72x96" (3 Stage base only). Specify the Rectangular Extension on page 65.

To create an extended corner My-Hite station, specify an Extended Curved Corner with a Rectangular Extension.
To create a two piece rectangular corner top, specify two rectangular tops, or a rectangular top and one rectangular extension.

Example Jumper Calculation

Calculate the jumper needed between element A and element B.

Step 1 - Take the width of the first element and find that number in the left column.
A is 54" and 54 is the second row down in the table.
Step 2 - Take the width of the second element and find that number across the top.
B is 78" and 78 is sixth column to the right.
Step 3 - Where the row and column intersect that is the required jumper needed.
54 and 78 intersects at FVJUMP.66.
